Stan,

Thanks for sending me this information. These tanks have been temporarily closed for 6 years or longer. Scott had tried to convince the owner to remove the USTs, but did not have much luck.

There are actually 2 people at Milles Lacs who are taking on USTs issues on the reservation. The main point of contact is Ryan Rupp if you cannot get a hold of him you can call Andrew Boyd. There contact info is below.

Ryan Rupp

Email: ryan.rupp@millelacsband.com

Phone: (320) 532-7442

Andrew Boyd

Email: andy.Boyd@millelacsband.com

Phone: (320) 532-7779

I will give them a heads up. I would like someone from the tribe to be there during the removal.

Thanks again!

-Mark

Subject: FW: Onamia 10 Day Notification

Hi Mark:

I have been working with a prospective buyer of this site in the past month and I see the owner is moving ahead with tank removal. Can you provide me with the new tanks contact at Mille Lacs so I can inform them of this upcoming tank removal. I am very familiar with this site as I was there for the clean –up and tank install.

This is an old tank leak site from the AST units that were in the back but I would expect to find some contamination on site during the removal of the two 4,000 gal. tanks.

Feel free to call if you have any questions.

Stan

Subject: 10 Day Notification

Hi Joann,

I've attached a 10 Day notification for an old gas station in Onamia.

Please reply confirmation that you've received this.

Thank You

Doug
